Introducing Osprey — Samurai's Latest All-Rounder

Samurai releases a new series of all-rounder boat rods with user friendly actions and a wide weight range, perfect for any offshore boat style fishing. The versatility of these rods are amazing and can be used for bait fishing, lures, trolling, casting or for the keen jigger why not use for a range of jigs including Tenya, Kabura and Inchiku styles.

Each rod is outfitted with the finest rod components by Fuji — anti-tangle K Frame guides with Alconite rings and Fuji reel seats. Grips are custom shaped and the rods are pimped out with aluminum decorative parts for some essential bling. A premium rubber gimble cap is dual purpose: fit it into your rod holder or hold it free style, no need for those annoying caps anymore that everyone loses!

Models	Style	Length	Weight
